

## DEER BREEDER TEXTURED FEED

*A textured deer supplement formulated for all life stages of deer*

AntlerMax<sup>®</sup> Technology is a highly-researched patented technology that enhances the body condition of deer so they can reach their full potential for body size, health and maximum antler growth.

### PRODUCT FEATURES:

- AntlerMax<sup>®</sup> pellets, patented energy nuggets, grains, roasted soybeans and sunflower seeds
- Patented High-Energy Nugget contains a blend of five vegetable oil sources including soy, flax seed and rice bran
- AntlerMax<sup>®</sup> Protein Technology with patented protected proteins
- Proprietary flavorings
- AntlerMax<sup>®</sup> Mineral Technology with chelated minerals
- High levels of Vitamin E & Selenium
- Proprietary Probiotic
- Fortified with a research-proven balance of vitamins and minerals
- Vitamins, minerals and probiotic contained in the pellet

### PRODUCT BENEFITS:

- High intake with high quality protein and vegetable oil sources
- Delivers 270% more energy of standard diet ingredients for top body condition and hair coat
- Delivers five times more amino acids for optimal antler and muscle development
- Extremely palatable – enhances feed intake
- For efficient mineral absorption and utilization
- For a healthy immune system
- For increased feed efficiency and increased fiber digestion
- Helps provide normal reproduction efficiency and immune function
- Prevents sorting and assures consistent intake

# DEER BREEDER TEXTURED FEED

**A textured deer supplement formulated for all life stages of deer**

### **Feeding Directions**

AntlerMax® Deer Breeder Textured Feed is a supplement, **not a complete feed**. Animals in confinement should be fed this product only when fed with free-choice access to adequate legume hay or roughage. Animals in confinement should not be fed this product as their sole diet without access to hay or roughage.

When fed free-choice, consumption will vary according to age, sex, climate, and physiological state but should be in the range of two to three pounds per 100 pounds of body weight.
